Re: Indiana Community Support Services Survey
Date: May 14, 2014

The Division of Disability and Rehabilitative Services (DDRS), in partnership with the [University of New Hampshire Institute on Disability](#) (IOD), is conducting a survey on the service system currently available in Indiana, for individuals with Intellectual or Developmental Disabilities (IDD) and co-occurring mental/behavioral health challenge.

DDRS and IOD wish to collect responses from individuals working in all aspects of mental health or IDD services to identify areas where the state may be able to strengthen or improve the delivery of services. The survey only takes few minutes to complete and is available at the following link: [Indiana Community Support Services Survey](#)

Please feel free to share information about the survey with other members of the community who can offer their insights as it relates to the IDD population.
